# Request Pressbooks Site

## Start of Block: Required Information

Q1
Use this form to request your own site with a unique URL on [UTA's Pressbooks platform](https://pressbooks.uta.edu). Please note that all resources supported by Mavs Open Press must be [openly licensed](https://www.apache.org/licenses/LICENSE-2.0), allowing for downstream users to remix and reuse the content.

Sites should be requested only after the project name has been finalized, as the URL cannot be changed once it has been created. Authors are encouraged to build resources in the Mavs Open Press Sandbox in the interim and then clone the content from the Sandbox to the project site after the project name is finalized. [Request Sandbox access here](https://pressbooks.uta.edu/).

Q6 Short Title (in case of long titles that might be truncated in running heads in the PDF export)

________________________________________________________________________

Q7 Requested URL (usually the short title; please note the URL cannot be changed)

________________________________________________________________________

Q8
Brief Description of Project (This is for internal use only and won't be published)

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

Q9 Anticipated Publication Date

________________________________________________________________________

End of Block: Required Information

Start of Block: Licensing Information

Q10 How would you like to license your resource? (go to https://creativecommons.org/licenses/ for more information)
Note: this can be modified at a later date before publishing

- Attribution  CC BY  This license lets others distribute, remix, tweak, and build upon your work, even commercially, as long as they credit you for the original creation. This is the most accommodating of licenses offered. Recommended for maximum dissemination and use of licensed materials.  (4)

- Attribution-ShareAlike  CC BY-SA  This license lets others remix, tweak, and build upon your work even for commercial purposes, as long as they credit you and license their new creations under the identical terms. This license is often compared to “copyleft” free and open source software licenses. All new works based on yours will carry the same license, so any derivatives will also allow commercial use. This is the license used by Wikipedia, and is recommended for materials that would benefit from incorporating content from Wikipedia and similarly licensed projects.  (5)

- Attribution-NonCommercial  CC BY-NC  This license lets others remix, tweak, and build upon your work non-commercially, and although their new works must also acknowledge you and be non-commercial, they don’t have to license their derivative works on the same terms.  (7)

- Attribution-NonCommercial-ShareAlike  CC BY-NC-SA  This license lets others remix, tweak, and build upon your work non-commercially, as long as they credit you and license their new creations under the identical terms.  (8)

End of Block: Licensing Information

Start of Block: Supplemental Information

Q11 The metadata requested below will be added to the resource prior to publication. These elements are not required to request a site, and applicable components can be incorporated at a later date.

Note: Separate multiple entries with a comma

Q12 Subtitle
